Subject: RE: PFAS Standards

Stephanie,
I know if one source for the Nafion BP2 solid
<http://www.synquestlabs.com/product/id/143103.html>

Here are two sources for the PFMOAA solid.
<http://www.synquestlabs.com/product/id/143107.html>

<https://fluoryx.com/collections/fluoroethers/products/sodium-2-2-difluoro-2-trifluoromethoxyacetate-catalog-no-fc23-02-cas-no-21837-98-9>

For the rest of the analytes we have ONLY gotten them from Chemours. You should ask for all of the analytes they have and should get them in aqueous solutions. My contact there is Lam Leung email: LAM.H.LEUNG-1@chemours.com>

Subject: PFAS Standards

Andrew and James,
I was given your names by Daren Vanlerberghe who met you recently on an inspection in North Carolina. He mentioned that you have PFAS standards you are willing to share. We purchased most of ours recently from Wellington but are still in need of the following standards. Do you have a supply you're willing to share or do you know of a supplier?

Thanks for your consideration,
Stephanie Volz
